## **Wayne Chirstian bad for Texas Railroad Commission**

Last election cycle we learned a lot of bad things about Wayne Christian. In the final hour of filing for March 1, 2016

Republican Primary he has attempted to sneak under the radar to file again. Below is the number one reason Christian is bad for Texas and the Texas RRC, because he believes he is above the law creating sweetheart deals for him and his special interests.

**More to come in later.....**

I know that Texas' Oil and Gas economy is too important to too many families. Can I count on you to have my back?

Will you send a contribution of \$250, \$100, \$75, or \$50 to kick-start my campaign for Texas Railroad Commissioner?

**The special interests and lobbyists can see this inexperience on the Railroad Commission.**

**They are taking full advantage of it;** stacking the deck, writing the rules in their favor, rigging the game. All so they can continue to reap the benefits at the expense of everyday Texans who rely on the Oil and Gas industry to make a living.

The last thing they want to see is a candidate supported by the grassroots stand up against their agenda. – That's why I need your help today.

So please send in your most generous gift of \$50, \$75, \$100, or even \$250 if you can help me hit the ground running.

I would truly appreciate your support.

Together we can make sure the grassroots stand tall to protect Texas jobs and create an environment where the Texas energy economy can flourish.
