Two events would delay action: long Fre...

The library was preparing for a major su...
could be taken until mid to late August. ...
Program was on simmer checking the in...

Time implementation would be one cons...
coaches had to be set in place and read...

The application time was extremely sho...
would be competing with the annual September Paris school activities push.
French school holidays would be the other constraint. (photo) Only two school months had no long holidays.

The simmering ideas began to bubble. The essay questions and criteria were prepared; the TM coordinators began working with the coaches as they volunteered. Once the library approved the session dates, the TM coordinators and the Library coordinator set the deadline for applications. The get-acquainted cocktail for the initial TM Coaches and the four association partners was held
