Membership Management

This system is designed to minimize duplicate member data and make access to this club website as easy as possible for the member. Full member information can be obtained by any club officer at the Toastmasters International website. As the club website administrator, you just need to enter the member's name. E-mail address and phone are optional.

Simply enter the member's or guest's name followed by his or her e-mail address (optional), then phone number (optional), each part separated by a space. One entry per line. **Make sure phone numbers *do not contain any spaces*, and contain at least 3 digits.** This will allow the current member (not guest) to select their name from the list of members and authenticate via e-mail. Once authenticated, they can update their own basic profile information. Example: "William Patonkis, DTM bill@email.com 212-555-1234". **When updating do not change the member name and email address at the same time.** To keep historical data accurate, do not remove former members from this list. Set them to "former member" below instead. *E-mail address should be entered if the member has one, but is not technically required.

Assign Officer, Guest, Former Member Status

Select IndividualSelect Role

Each member is set to "member" (current member) by default. To set the status for an individual, select the individual's name from the first field, the role/status from the second, then save. **Guest status** only adds the member to the "guests" e-mail list. **Former member status** keeps the member in the historical reports only. The **Vice President Education** role has admin access to the meeting agenda by default.

Upload Photo for a Member

Françoise Khoury

First select the member from the dropdown menu, then upload a photo from your MAC or PC. The photo will be resized to 100px x 100px and cropped as a square image.
