Subject: get your electric bike today
Date: Monday, December 19, 2022 7:25:02 AM

Hello,

Our factory is a manufacturer of electric bikes with well-equipped testing facilities. With a wide range, good quality, reasonable prices, and stylish designs, our products are widely recognized and trusted by users. We welcome new and old customers from all walks of life to contact us for future business relationships and mutual success.

Our electric bike has established a good brand image with its unique shape, advanced and reliable technology. The body structure that can withstand 100,000 times of vibration, shock absorber, high-efficiency motor and driving system has become the leading and unique advantage of this electric bike.

This new 20 inch fat tire electric bike foldable provide better grip and traction on the most troublesome terrains, making driving more stable for all road conditions such as mountain, snow, sand, rough trails, urban jungle, muddy forest and mountainous areas.

Key features of our E-bike:

- 1: 500W powerful brushless motor. Max speed up to 25 mph.
Making driving more stable to suit all road conditions such as snow, road, beach and mountain.
- 2: 48V 10.4Ah removable lithium-ion battery, charge it at home or in the office to avoid being stolen. Supporting 30-50 mile riding for per charge.
- 3: 5 Speed display, provides information includes speed, battery level, mileage, pedal assistance.
Helps provide a smooth and natural driving experience.
- 4: Extra-wide tire with raised pattern, anti-skid and knotted, improve comfort and rollover ability. Provide better grip and traction on all terrains.
- 5: Made of high-strength carbon steel and has excellent comfort and shock absorption performance. Making driving more stable to suit all road conditions.
- 6: Lighter aluminum alloy frame and 37*30 inch size after folded.
Light, strong and durable, easy fold and storage.
- 7: Riding safely with the bright LED headlamp. Ultra-powerful LED light to help you navigate at night.
- 8: Provide powerful, progressive braking in different road condition.
Works better than rim brakes in wet weather.
