You have errors in your form below. Please scroll down and correct the following:

1. Basic Settings Tab - This domain is not yet pointing to the IP address 50.19.253.65. In your domain registrar's DNS area, modify the existing "A" and "MX" records for this domain, to point to 50.19.253.65, wait the amount of time as specified by your domain host, then try again.

Website Alias

-  This will be used in place of your club number in your URL (website address). Not necessary if you are using a Custom Website Domain (at right).

OR

Custom Website Domain

-  Make sure you own the domain and have moved it first!

NOTE: Setting up a Custom Website Domain is a very technical task that we *strongly recommend* you read up on before attempting it: [Instructions for setting up a Custom Website Domain](#).
