ⓘ Select up to three officer roles or members that will be handling the contact form submissions. The member e-mail addresses are **not** made public on the form, and not visible anywhere on the website. The names and phone number of the contacts will ONLY be made public if you select that option for the member. Be sure to get the member's consent before selecting this option.

☑ **Check this to enable the** *contact-4875@toastmastersclubs.org* **email address.**

ⓘ If enabled, the *contact-4875@toastmastersclubs.org* email address provides an alternate way for your club contacts to receive emails. This is a **publicly accessible** email address--it can become the target of spammers. If you choose to use it, we recommend that you get familiar with the enhanced email security features on the Email Security tab.

In the contact us facility, where FORM is used – our VPM does not receive an inquiry when an interested person logs this enquiry.

Listed is the test message, only the president and myself being the VPE/Treasurer receive the inquiry.

Is there an area where I need to activate to enable this to fix this.
