

Dear FTH Support,

Our FTH website is club 5841 <https://palmbeachcurrumbin.toastmastersclubs.org/>

When you have an opportunity, can you help me please to understand / learn how to update the title which is displayed when visitors roll the mouse over our social media unique link icons?

Via the Admin Console, I've updated "Social Media Links" to Facebook, LinkedIn, YouTube, MeetUp, *My Community Directory, Yellow Place, and Palm Beach Promotions*.

When a visitor points the mouse on Social Media link icons, the destination text displays as "Facebook", "LinkedIn", "YouTube", "Meetup" but others show path rather than title "My Community Directory", "Yellow Pages" and "Palm Beach Promotions".

How do I edit source code to display correct Icon Title or apply to have icons added to library?

Below / attached in PDF is a snapshot of TITLE displayed when roll mouse over non-standard icon and an extract of source text where TITLE is coded as path rather than destination name.

I'd very much appreciate any assistance or comments to help us improve and correctly display social media link naming on our FTH website.

Please let me know if additional information is required to help illustrate problem.

Kind regards

Dianne Scriven
