Hey Brian,

First to reply, but slow to re-reply! My apologies, this smoke finally triggered my immune system, and it's been a pretty rough weekend.

I did get the option to reset the password (second attachment), and it sent me an email, but when I clicked on the link embedded in the email, it told me that the link was incorrect (first attachment). I went through that process twice before I gave up.

And I did make a first version of that handout (summarizing the first two talks), but I didn't finish the final version (with all four talks). I'll try to get that done by Friday, after I catch up with work stuff. :)

Do let me know if I can help with anything (other than the website, because clearly I have terrible web karma.)

All bestest,
J.

Jacqui,

You get the emoji clap for being the first responder 🙌

Thank you so much for being a willing mentor. I would be very excited to try and apply the lessons you were teaching us to the mentor presentation.
I apologize if you sent it already, but if you wouldn't mind sharing the handout that would be great.

I'm sorry we're having so many issues with the website, that is so frustrating.

I took the snapshot below from the free toast host website:

<https://support.toastmastersclubs.org/doc/item/browsing-and-logging-in#forgotten-password>

Do you get the option to authenticate when you're trying to re-enter your pwd?
I am searching the website now for how an admin can reset passwords.

Hey Brian,

I'd be happy to mentor anyone wherever I can be useful...as long as it's not with TM tech.

Unfortunately, the Kirtland website has completely locked me out, and when I tried to reset the password, it told me that my reset code was invalid and that I needed to be acknowledged by a system administrator. I'm not sure why it kicked me out in the first place, but I'd appreciate it if you could double-check my membership entry. :) Yeesh!

All bestest,
J.
