

Subject: [LTM] Two changes to the Lilydale Toastmasters website

From: "Toastmasters Club 4731 on behalf of Judy Murphy, DTM" <server@toastmastersclubs.org>

Date: 27-Jul-17 8:28 PM

To: "officers@lilydaletoastmasters.org.au" <toastmaster@netspace.net.au>

Hi Everyone,

I have received two emails purportedly from Lilydale Toastmasters website. It came from server@toastmastersclubs.org [LTM]
Re: Performance Based - Digital Marketing!

Somehow they have hijacked or imitated sending from our website. There are some new security options on the website which I have enabled.

One is that HTTPS is enforced if it is available.

HTTPS Policy: NEW!

i Select whether you want the system to enforce usage of HTTPS (encrypted) access if it is available. This encrypts your connection between your browser and the FreeToastHost server to prevent hackers from stealing contact information and passwords.

The other is that every legitimate email from freetoasthost will display the following message at the bottom of emails

Anti-Spoofing Phrase NEW!:

i Type a unique slogan, mantra, motivational phrase, or other text here known only to your club (250 chars max). This will be added to the bottom of emails sent through FreeToastHost to verify that the emails have actually been sent via FreeToastHost on behalf of your club.

Hope this keeps the nasty and bothersome people at bay.

cheers
